

PETITION AGAINST WIND FARM IN MONTAGUE COUNTY, TEXAS

I am against the future construction of any wind farm and any company wishing to build a wind farm in Montague County. I firmly believe the wind farm and associated power lines will de-value my property while limiting the number of buyers of my property to those that wish only to live amongst and within eyesight of wind turbines. I firmly believe it will ruin the beautiful landscape we enjoy, eliminate the productive and recreational income and value from land, and create hostility amongst homeowners and landowners, residents and county officials. No amount of income from any wind farm is worth the substantial losses it will create for future generations. Please respect my right as a citizen to be heard in protest and reject any tax abatement for this project. In addition, I am in support of any county ordinance that will serve to govern and restrict any wind farm in the county and help to protect the beauty of Montague County along with the value for current homeowners and landowners. My signature on this petition represents my stance against any wind farm, and may be used for any purpose that may arise against any wind farm project in Montague County, Texas.

I testify I am at least 18 years old and pay taxes and/or vote in Montague County.

I am in Precinct: 1 2 3 4
